

dynaGlide

dynaGlide Plus[®] with HD 4X[™]

Tri-Boundary Dry-Lubricant & Cleaning Conditioner.

for TOOL & SURFACE All Metals

dynaGlide Plus[®] will increase your production.

Less time sharpening, cleaning, and maintaining tools and equipment.

Scan QR Code with your smart phone for more information.

Available in
dynaGlide Plus w/HD 4X
and the Original dynaGlide
Wood & Tool Conditioner

PRECISE SPRAY COMFORT GRIP

Adjustable Flow tube extension spray or fine fan spray

Cleans and prevents router bearing heat build-up to extend bearing life.

Extends sharp cutting life of all Bits and Shapers.

Removes and prevents build-up on abrasives.

Cleans and prevents resin and glue build-up.

Use on Woodworking & Metalworking Tools, Use on any Metals

dynaGLIDE[®] will not stain, discolor, or transfer. dynaGLIDE[®] penetrates instantly and dries within minutes, leaving behind extremely tough pressure film.

Can be used for storage of tools, all router bearings, table beds, scroll-saw, ban-saw, cutters, lathe tools, all cutting/drilling/routing blades, etc. Will not stain wood or other material.

Replaces all other lubricants for any purpose.

Silicone and Teflon FREE

Tri-Boundary Dry-Lubricant

- * 3,300-lb (Falex test) Load Carry capacity
- Reduces Friction/Heat 2 times(+) over conventional lubes
- 3 times better Cutting Performance of all Blades, Bits, Abrasives, and Equipment
- Displaces moisture, rust, grit, gunk
- HD4X[™] Blocks Rust, Tarnish and Oxide Corrosion

Extends All Cutting/Drilling/Routing & Tool Life

- Minimizes Sharpening/Cleaning Cycles, Keeps tools sharp 2 times(+) longer
- Retards Resin/Glue Build-up

Table Top Cleaner/Conditioner

- Non-Gumming "Table Top" Coating - no gummy build-up
- Cleans & Conditions All Metal surfaces
- Eliminates Drag
- Displaces & Cleans Grit, Grime, Old Oils & Greases
- Passes 400 hour Salt Spray test Humidity & Water will not remove HD4X[™]

dynaGlide Plus[®] Comfort Sprayer[™]
Ergonomic Comfort Grip Design

dynaGlide Plus® with HD4X™ *A dry-film Lubricant, Cleaner & Conditioner for TOOLS, SURFACES and ALL METALS*

**Expressly formulated & compounded to extend
the life of tools, machine parts & equipment.**

**PRECISE
SPRAY
COMFORT GRIP**
Adjustable Flow
tube extension spray
or fine fan spray

dynaGlide Plus™ Comfort Trigger Sprayer
*provides a wide continuous spray pattern
for large surface area applications as well
as a fine precision spray when using the
tube extension.*

dynaGlide® and dynaGlide Plus® are Dual & Tri-Boundary dry lubricants with unique proprietary additives engineered for all tools and metal surfaces. HD4X™ is a proprietary rust and corrosion preventive that blocks oxidation on all metals...

**dynaGlide Plus® with HD4X™ protects in extreme conditions
of pressure, heat and moisture...**

- Creates a dry-film boundary that carries a 3,300 lbs load carrying capacity (six times US military spec)
- Will protect all metals from warping or overheating up to 450 degrees
- Water and humidity will not diminish the effectiveness of the HD4X™ film
- Cleans and prevents router bearing heat build-up to extend bearing life
- Extends sharp cutting life of all saws, bits, routers and shapers
- Cleans and prevents resin and glue build-up on any metal, plastic, rubber surfaces and abrasives
- Eliminates drag and build-up on table beds & saws blades
- Use on woodworking and metal tools, safe for use on any metal – will not harm wood
- Prevents rust and corrosion from forming on metals (400 to 600 hours in salt spray test)

Best results are achieved with two initial cleanings of metal surfaces with dynaGlide® formula before the first conditioned application use. Thereafter one cleaning/conditioning application of dynaGlide® formula renews the metal surface for continued use.
